

780 nm Femtosecond Fiber Laser With Free Space Output

Applications

- Biophotonics
- Terahertz radiation
- Seeding Ti:sapphire amplifiers
- Materials characterization
- Optical metrology
- Multiphoton imaging microscopy

Features

- Pulse energy up to 1 nJ
- Peak power up to 10 kW
- Central Wavelength 780 nm
- Pulse widths as short as 0.09 ps
- Near transform-limited output
- Linearly polarized output
- Minimal pulse pedestal
- Low timing jitter
- RF synchronization output
- Turnkey operation
- High stability

The 780 nm femtosecond fiber laser is a second harmonic generation (SHG) product of Calmar's passively mode-locked fiber laser in C-band. It has excellent stability, reliability and turnkey operation, based on the proven C-band laser. The pulse width is as low as 0.09 ps with near transform-limited pulse shape and a negligible pedestal. The timing jitter is as low as 60 fs. The repetition rate can be specified from 10 to 100 MHz with a polarization-maintaining (PM) output. With up to 100 mW output power at 100 MHz and 0.09 ps pulse width, the laser provides as high as 1nJ pulse energy and 10 kW peak power. An RF synchronization output is provided as a trigger signal.

Calmar's FPL operation is highly stable, which significantly differentiates us from our competitors. Whenever our laser is turned on, it always starts in the same operation state.

Mendocino 780 nm Technical Specifications

Specifications	Free Space Output
Central Wavelength (nm)	780
Average Power (mW)	10 - 100
Pulse Width (fs) *	< 90
Repetition Rate (MHz)	10-100
Spectral Width (nm)	~ 8
Polarization Extinction Ratio (dB)	> 18
Beam Quality	$M^2 < 1.2$
Beam Diameter (mm)	< 2
Operating Temp (°C)	15 - 35
Operating Voltage	Desktop: 85 - 264 VAC Module: 5 VDC
Dimensions (cm)	Desktop: 34(w) x 30(d) x 9(h) Module: 18.4(w) x 12.7(d) x 6.5(h)

* A sech^2 pulse shape (convolution factor of 0.65) is used to determine the pulse width for the second harmonic autocorrelation trace.

Due to our continuous improvement program, specifications are subject to change without notice.
