

## MENHIR-1550 SERIES

Menhir Photonics femtosecond laser sources are based on robust and well-engineered designs, offering excellent reliability with the lowest phase noise and timing jitter on the market from soliton modelocking. Continuous 24/7 operation, user-friendly and self-starting, the MENHIR-1550 series has been designed to facilitate OEM integration and enable the specific customers' needs.

### Key features

- Ultra-low noise
- Transform-limited pulses
- Compact industrial design
- Harsh environment resistant
- User friendly
- Turnkey system
- 24/7 operation
- All-in-one system

#### **Applications**

- Quantum optics
- Optical communication
- THz generation
- Timing distribution
- Frequency combs
- Analog/digital converter
- Ultra-low noise microwave generation

### Key specifications

- Wavelength: 1545 1565 nm
- Rep. rate: 100 MHz 2.5 GHz
- Soliton pulses: < 250 fs

#### **Options**

- f<sub>rep</sub> and f<sub>CEO</sub> actuators
- RF output
- OEM version
- Space-grade version

# **Specifications**

| Parameters          | MENHIR-1550<br>(Oscillator without amplifier)   | MENHIR-1550+<br>(Oscillator with amplifier) |
|---------------------|---|---|
| Average power       | > 50 mW   | Up to 2 W                                   |
| Peak power          | > 0.1 kW  | Up to 4 kW                                  |
| Pulse energy        | > 0.05 nJ   | Up to 1 nJ                                  |
| Repetition rate     | Standard: 216, 250, 400 MHz, 1, 1.25, 2 or 2.5 GHz<br>Custom design: from 100 MHz to 2.5 GHz* |   |
| Center wavelength   | 1555 +/- 10 nm  |   |
| Spectral bandwidth  | > 10 nm (at -3 dB)  |   |
| Pulse width         | < 250 fs, Transform limited   |   |
| Optical output port | Fiber output (PM FC/APC), Free space  |   |
| Beam quality        | $TEM_{00}$ , $M^2 < 1.05$   |   |
| Polarization        | Linear (PER > 23 dB, > 200:1)   |   |
| Amplitude noise     | < 1% [1 h], < 0.05% [1 Hz - 10 MHz]   |   |
| Timing-jitter       | < 30 fs [1 kHz - 10 MHz]**  |   |

<sup>\*</sup> Please inquire for specific repetition rate.

#### General

| Power supply          | 5 VDC / 2 A***                                      | 24 VDC / 2 A*** |
|-----------------------|---|-----------------|
| Power consumption     | < 10 W  | < 50 W          |
| Cooling               | Passively air cooled                                |                 |
| Warm-up time          | < 10 s (cold start)                                 |                 |
| Dimensions / Weight   | 260 × 250 × 60 mm <sup>3</sup> / 8 kg               |                 |
| Operating temperature | +5°C to 45°C  |                 |
| Storage temperature   | -10°C to +60°C                                      |                 |
| Relative humidity     | < 80% (non-condensing)                              |                 |
| Control unit          | No control unit required / All-in-one system        |                 |
| Analog interface      | Status, Trigger, Alarm, Interlock, Power modulation |                 |
| Digital interface     | USB, RS232  |                 |
|                       |   |                 |

<sup>\*\*\*</sup> Power supply for 100  $\,-\,$  120 VAC or 220  $\,-\,$  240 VAC is provided.

Please inquire for custom modifications.

Specifications are subject to change without notice.

<sup>\*\*</sup> Please inquire for better timing-jitter requirements.
