NewDEL™ **NIR**
## Fiber-coupled LED

Meticulously engineered photonic tools built to advance the goals of our customers, whether they are forging new paths in scientific discovery or implementing an ongoing project.
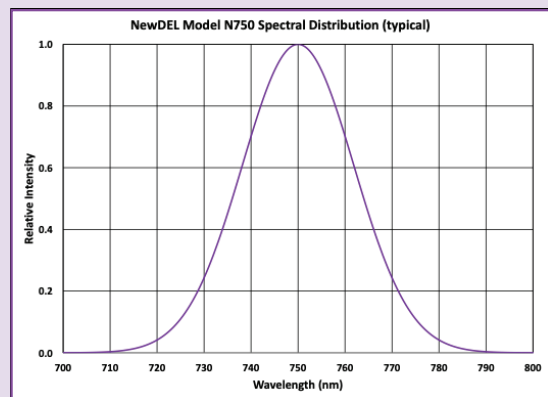

The NewDEL™ NIR product group of fiber-coupled LEDs combines narrowband output at wavelengths targeting key NIR applications. As with other narrowband models in the NewDEL™ incorporates controller and driver circuitry and uses PWM dimming exclusively to prevent wavelength drift. Contact us if you need wavelengths not already listed on our website.
